IMPACT REPORT

ADVANCING - IN AND BEYOND THE GAME - THE NEXT GENERATION
OF IMPACT PLAYERS

PRESENTED BY:

**Event
Connect**™

KIRSTEN SIMMS - Represented Team USA at the IIHF Under-18 Women's World Championship in 2020 (Gold) and as Alternate Captain in 2022 (Silver), University of Wisconsin, 2-year TPH Academy student-athlete

RUTGER MCGROARTY: Drafted 14th overall to Winnipeg Jets in 2022 NHL Draft, University of Michigan, Captained Team USA at 2022 IIHF World U18 Championships, 4-year TPH Academy student-athlete

A MESSAGE FROM OUR CEO

Welcome to TPH Academy's first annual Impact Report! We're excited to share - for the first time, all in one place - TPH-wide highlights spanning an academic year.

The 2021-2022 year began on a celebratory note as we turned 20 years old as a company. We took a moment to reflect on our evolution and growth, while also appreciating the fact that we've remained true to the sense of purpose the company was founded upon. Our passion for leading, for being different, for advancing the person and not just the player, and for working in a strong ecosystem of families, teammates, and partners to create positive impacts - in and beyond the game - remains at our core.

We're thrilled to capture this passion, and most importantly the outcomes from it, in this Impact Report. Here you will see partnership, community, and growth - our brand promise to families - in the connections created with and between our student-athletes, the breadth and depth of engagement and resulting contributions in our communities, and the quantifiable development our student-athletes experience as they discover new levels of potential.

Our team of incredible mentors, coaches, trainers, and educators have a deep understanding and appreciation for the journeys our young student-athletes are on. Our teammates truly go above and beyond for the families who place a great degree of trust in us at an important time in their childrens' development.

We're especially fortunate to have the opportunity to work and connect with amazing kids, who pour their hearts, minds, and bodies into their development. They arrive at TPH with a spark. It's our duty to help them not only channel that spark into academic and athletic success, but also create positive outcomes in their communities as leaders, contributors, and positive influencers.

We hope you enjoy the moments shared here that made the 2021-2022 academic year our best one yet at TPH Academy. We're also excited to share just a sample of what's to come in anticipation of the 2022-2023 season, because as our founder Nathan Bowen has often said over the past year, "We've celebrated our 20th anniversary as a company, but in so many ways we feel like we're just getting started."

For being with us on this journey, whether as a student-athlete, a parent, a teammate, or a partner, we thank you for all you do as together we strive to lead the world in the holistic development of student-athletes.

WHY TPH ACADEMY?

Ryan Humphrey, OHL Hamilton Bulldogs and TPH Academy Alumni

A BETTER WAY TO ACADEMIC AND ATHLETIC EXCELLENCE

TPH Academy is focused environment where dedicated student-athletes Study, Train and Play to newfound levels of potential. Our environment combines a proven, accredited, blended academic learning program with innovative, hands-on, sport-specific training and instruction. We at TPH believe in a holistic approach, and recognize that our greatest responsibility is to prepare our student-athletes for success in the ultimate game: the game of life.

“This past year was my son’s first year at TPH. It was a great experience for him. **He has grown tremendously** both with his hockey skills as well as academically. I love the small class sizes both on and off the ice. This allows the coaches to give individual attention to each of the players.

- Felicity L.

PARTNERSHIP

Mentorship is the foundation of TPH and begins with building a strong connection with our student-athletes and families. Supported by our TPH Performance App, which tracks student-athlete academic progress, athletic testing, and weekly wellness survey results, our team builds strong, meaningful connections with student-athletes and families. As a result, our families are better informed on their children’s holistic performance and well-being than prior to joining us at TPH Academy.

COMMUNITY

Becoming an elite student-athlete starts with being a well-rounded person and requires support from a community of people - a village. Our student-athletes gain a new community of like-minded friends, invested teachers, committed coaches, and TPH alumni who bring their own vast networks. In addition to increased breadth of community, student-athletes will also experience deeper ties to their local community as builders, contributing through extra-curricular activities and acts of service to others.

GROWTH

The experience at TPH Academy is a rewarding one. Our student-athletes own their development and in the process experience measurably improved performance in their academics, training, and sports, growing in confidence along the way. Most importantly, student-athletes maintain the enjoyment of “being a kid”. Our model empowers them to pursue their goals without having to choose between academic and athletic success, all while maintaining the enjoyment of the journey - in and beyond the game.

COLLABORATION + INNOVATION

At TPH Academy, we're always innovating to bring the latest in learning and development to our classrooms. Our academic team of more than 40 staff collaborate in small groups, as "one team", and with our education partners to ensure that (1) best practices are shared across TPH for a continuously improving academic experience, and (2) the latest in the "how" behind learning and development from outside our walls is brought in-house to keep TPH Academy on the leading edge of education.

BLENDED LEARNING ENVIRONMENT

Our student-athletes experience a blended, immersive learning environment that pairs online, certified teacher-supported course content with in-person learning guidance from our Heads of Academics and Success Coaches. Our blended model delivers the best of real and virtual worlds, preparing our student-athletes for success in college and university settings and beyond.

ELITE EDUCATIONAL ENVIRONMENT

As education and athletic training continue to evolve, providing student-athletes with the best possible learning and development environment is crucial.

We create spaces and facilitate an environment to provide all types of learners with a comfortable and productive academic experience. Our space has everything our student-athletes need to truly take ownership of their development.

LEARN MORE ABOUT ACADEMICS AT TPH ACADEMY

"I have two children attending TPH Academy for their second year in a row. Though extra ice time and improving in hockey is important, we really needed an academic environment that would fit both our boys' very different learning styles and unique academic needs. Our boys love school and are exceeding our academic expectations. We cannot wait until our youngest is old enough to attend TPH Academy!"

Dr. Amy Semel, PhD - Huntsville, AL

ACHIEVE YOUR GREATEST LEVEL OF ATHLETIC PERFORMANCE

“Without question, TPH Detroit has contributed greatly to our son’s hockey development over the past 2 years. He has matured and grown as a person, and we have witnessed clear, tangible improvements in his overall performance on the ice. Simply put, he is a different hockey player from the day he arrived at TPH Detroit. Our son’s passion for the game is higher than ever, and we are excited to watch him pursue his goal of playing higher level hockey in the future.”

- TPH Detroit Parent

COACH F.A.'s MENTORSHIP PROGRAM

Foundations in Personal Development and Elite-Athlete Mindset

Overview

DEVELOPING CHARACTER. BUILDING FUTURE LEADERS. EMPOWERING EXCELLENCE.

Coach F.A.'s Mentorship Program is designed to nurture the champion within each member of the TPH Academy. With content tailored specifically to aspiring-elite student-athletes, the program spans 9 lessons and is delivered live, presentation-style via Zoom. As a follow-up to the live lessons, student-athletes receive a course workbook with follow-up activities that allow for introspection, self-assessment, and group discussion.

Throughout the 2022-2023 school year, student-athletes will embark on a journey with Coach F.A. that tackles the following topics:

- The 9 Core TPH Way Principles for the Aspiring-Elite Student-Athlete
- Energy Channels 7-9
- Purpose, Vision, Planning
- Coping with Stress and Pressure in Sport
- Programming Your Energy Cable Line-Up
- Personality, Performance, Pre-Game Preparation
- Defining What it Means to be a Great Teammate
- Suggestions for Proper Self-Evaluation
- Establishing Your Own Personal Code

ABOUT COACH F.A.

Francis Anzalone is the Chief Operating Officer for TPH, a hockey coach at heart, and a mentor to student-athletes. He has spent over twelve years supporting hockey teams at the youth, Junior 'A' and international levels, serving in various coaching, scouting and player development roles. Since joining TPH in 2017, Francis has channeled his passion for helping athletes maximize their potential by building and delivering the curriculum for what has come to be known as Coach F.A.'s Mentorship Program.

Remi Karsh with Avalanche GM Joe Sakic

Kirsten Simms

TPH alum, U.S. Under-18 Women's National Team, University of Wisconsin

"My time at TPH has helped me grow as a player on the ice in many ways. A few of the main skills I have developed while training with them are my shot and edge work/ skating. I have been taught multiple different ways to shoot in different situations as well as my confidence on my edges would not be where they are at today without the coaching I have had with TPH. They help with everything being for game situations and make it easy to transfer it into your game. Overall it has prepared me so much for the higher levels and helped me add new skills to my game."

JASMINE ROBERTSON

Jasmine along with her partner won the Intermediate Dance US Figure Skating 2022 Championship Series- Gold Medalist.

We are advocates for more opportunities for girls in the game, and we are committed to helping generate these opportunities through our academies, associations, and events.

TPH is currently experiencing the highest number of female athletes we have ever had.

In Nashville, TPH and the Nashville Junior Predators launched three new all-girls teams. This supports the incredible efforts from the Nashville Predators who are committed to growing girls hockey and donated \$500,000 towards the girls game.

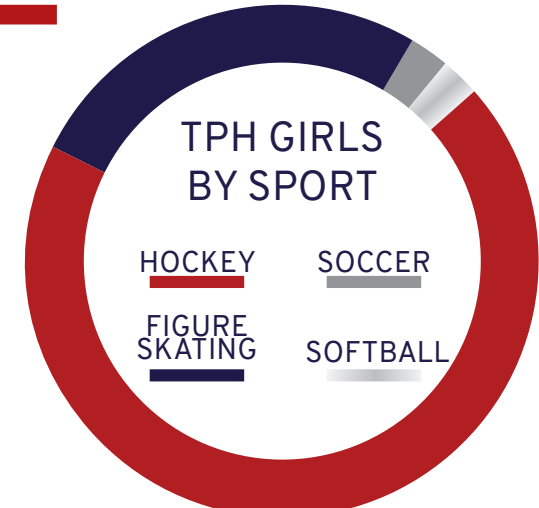

In Colorado, the Colorado Avalanche, TPH, and CAHA are working together to break down financial barriers for girls in hockey. Through a scholarship, TPH Academy is now more accessible to aspiring female athletes.

"TPH is dedicated to growing the game of hockey within every community we serve," said VP, TPH Colorado, Jordan Pietrus. "Girls hockey is an integral part of Colorado's hockey history as well as its future, and we as an organization want to help empower these young women to be successful as hockey players, students, and leaders."

In October 2021, the Nashville Jr Predators organization announced its new girls program led by an all female coaching staff. The 19U tier II team advanced to nationals.

2021-2022 Athletic Highlights

- 9 FEMALE ATHLETES PLAYING AAA HOCKEY
- 3 ATHLETES INVITED TO USA HOCKEY SELECT FESTIVAL
- 2 AA STATE CHAMPIONS
- 1 ATHLETE ADVANCING TO TIER II
- 1 TEAM CAPTAIN + KACHINAS FUTURE LEADERSHIP AWARD RECIPIENT
- 2 TEAM MVPS
- 1 TOP 8 FOR GOALIES IN 15U
- 1 ATHLETE ADVANCING TO WCHA DI

MARLIE KUBALIAK

Marlie was the 2nd youngest in her division, led her team in goals on TPH Huntsville's all-girls Thunder hockey team.

INAUGURAL TPH GIVES DAY

APRIL 12, 2022

Major Thomas E. Kennedy and Family

GIVING BACK: THE TK SCHOLARSHIP FUND

On April 12, 2022, TPH student-athletes across the United States gathered for the Inaugural TPH Gives Day, benefiting the TK Scholarship Fund. Together students and Team TPH celebrated the life and legacy of MAJ Thomas E. Kennedy and raised funds for the TK Scholarship Fund.

Students participated in community service outreach to honor Veterans in their community, attended a virtual presentation, and concluded TK Day with a memorial skate, run or walk. During the virtual presentation, student-athletes intently listened to keynote speaker and Army NCAA DI Black Knights Hockey Head Coach, Brian Riley who focused on the importance of leadership, through TK's example, on and off the ice.

Coach Brian Riley, Head Hockey Coach - West Point

MORE ABOUT THE TK SCHOLARSHIP FUND

Commitment, accountability and a team first mindset – a few words that describe Major Thomas E. Kennedy. Major Kennedy was the definition of a servant leader; sacrificing his life for our freedom while heroically serving in Afghanistan in 2012.

The TK Scholarship Fund was created to celebrate MAJ Thomas E. Kennedy's life and legacy. He was a dedicated student-athlete, a cherished leader amongst his fellow soldiers, and an outspoken advocate for those who needed a helping hand.

MAJ Kennedy's legacy lives on through the recipients of this scholarship by providing financial assistance to elite student-athletes who demonstrate leadership, dedication to academic success, and a desire to train at the highest level in their sport.
